TOASTMASTER

REG. U.S. PAT. OFF

AUTOMATIC WAFFLE BAKER

MODEL 2E2

"SILTECT" PREVENTS WAFFLE STICKING!

• Now you can make crisp golden-brown waffles every time *without sticking*. That's because the grids of the new "Toastmaster"* Waffle Baker are specially treated with "Siltect"* to prevent sticking. Eliminates need for conditioning with vegetable oil.

• This revolutionary discovery makes it easy for your most inexperienced help to make perfect waffles every time. There's no possibility of improper grid conditioning — no spoiled batter or wasted current.

OTHER SPECIAL FEATURES

A PLUG IN APPLIANCE—Equipped with 3 ft. long heat-&-grease-resistant Neoprene cord and plug. Needs no special wiring.

FLOATING HINGE—Lets top grid raise when waffle expands during baking. Permits waffle to form fully.

LOW COST OPERATION—Automatic temperature control maintains proper baking temperature, snaps current off the instant waffle is done.

EVEN-HEAT GRIDS—Correctly balanced heat at every point on both upper and lower grids makes even color, perfectly browned waffles.

INTERLOCKING GRIDS—Seals batter in as baking begins; limits overflow. Makes neat looking waffles with smooth edges.

AUTOMATIC PILOT LIGHT—Flashes signal when baker is ready for waffle making. Glows while baking and signals again when waffle is done.

ATTRACTIVE APPEARANCE—Gleaming, extra-thick chromium plating—easy to keep clean and attractive.

LONG LIFE—Durably constructed throughout. Extra heavy cast aluminum grids—long-life heating elements.

TEMPERATURE CONTROL—Times every order automatically so that every waffle is uniformly brown and delicious.

TEMPERATURE ADJUSTMENT—Can be set for light, medium, or dark waffles. Gives perfect results whether batter is thick or thin.

SPECIFICATIONS

MODEL 2E2

Size	2-waffle
Waffle Size	7 in.
Dimensions: Width	20 in.
Depth	14½ in.
Depth including cord	15½ in.
Height (closed)	7½ in.
Height (open)	19 in.
Rating	1.65 kw.
Current	Operates on either A.C. or D.C.
Cord and Plug (Furnished as Standard Equipment)	3 ft. long
Voltage	(Specify when Ordering)
Installed Weight	26 lbs.
Shipping Weight	31 lbs.

TAKES ALL GUESSWORK OUT OF WAFFLES!

FULLY AUTOMATIC. Snap switch "on" only once, in the morning or before rush period. Grids pre-heat maintain proper baking temperature.

NOTHING TO SET. Pour in batter, close cover. Pilot light goes "on" and glows while waffle is baking. Current and light go "off" when waffle is done.

NO STICKING. Waffles lift out easily, are never broken or ragged looking. Wastes no time or ingredients. Ends customer-irritating delays.
